### Recombinant SARS-CoV-2 Replicase Polyprotein 1a (3C-like Proteinase Nsp5) RAY-230-01174-50

|                          |                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------|
| Artikelname              | Recombinant SARS-CoV-2 Replicase Polyprotein 1a (3C-like Proteinase Nsp5)                        |
| Artikelnummer            | RAY-230-01174-50                                                                                 |
| Hersteller Artikelnummer | 230-01174-50                                                                                     |
| Alternativnummer         | RAY-230-01174-50                                                                                 |
| Hersteller               | RayBiotech                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                 |
| Spezies Reaktivität      | Virus                                                                                            |
| Produktbeschreibung      | Recombinant SARS-CoV-2 replicase polyprotein 1a (3C-like Proteinase Nsp5) derived from E.coli... |
| Konzentration            | Lot specific (see the label on the vial), determined by Bio-Rad protein assay reagent            |
| Molekulargewicht         | 34 kDa                                                                                           |
| Tag                      | His-tag                                                                                          |
| Expression System        | E. coli                                                                                          |
| Reinheit                 | SDS-PAGE under reducing conditions and visualized by Coomassie blue staining                     |
| Formulierung             | Liquid                                                                                           |
| Sequenz                  | Ser3264-Gln3569                                                                                  |

|        |                                                                                                                     |
|--------|---------------------------------------------------------------------------------------------------------------------|
| Formel | Filtered solution in 40 mM Tris-HCl (pH 8.5), 50 mM NaCl, 200 mM arginine, 10% glycerol, 1% mannitol, 5% trehalose. |
|--------|---------------------------------------------------------------------------------------------------------------------|
