Product Datasheet

Recombinant Human Wilms Tumor 1 Protein, HEK293 Supernatant RAY-230-20018-200

Artikelname	Recombinant Human Wilms Tumor 1 Protein, HEK293 Supernatant
Artikelnummer	RAY-230-20018-200
Hersteller Artikelnummer	230-20018-200
Alternativnummer	RAY-230-20018-200
Hersteller	RayBiotech
Kategorie	Proteine/Peptide
Spezies Reaktivität	Human
Produktbeschreibung	Recombinant human Wilms Tumor 1 overexpressed in cell culture supernatant (serum free), derived from transfected HEK293 cells (200 µl). Purchase will also include one vial of normal control, the culture supernatant of HEK293 cell transfected with emp...
Molekulargewicht	36.8 kDa
Tag	His
Expression System	Human

Reinheit	Unpurified cell culture supernatant. HEK293 cells grown in serum-free medium were transfected with expression vector harboring target gene. The cell culture was harvested with centrifugation to remove cells. The cell culture supernatant containing mammalian cell protease inhibitor cocktail was aliquoted and stored at -80C immediately. The gene overexpression in culture supernatant was confirmed by Western blotting using anti-His tag antibody and/or target-specific antibodies and the culture supernatant derived from HEK293 cells transfected with the empty expression vector was used as a negative control.
Formulierung	Pink liquid
Sequenz	Glu2-Leu302
Formel	Culture supernatant of transfected HEK293 cells
