## Product Datasheet

**Anti-SARS-CoV-2 S1RBD Antibody, Biotinylated, Clone: [4A9-C2-G3-F10],  
Mouse, Monoclonal  
RAY-130-10844B-50**

|                          |                                                                                                                                                                                                                                                                                                                                                                                                        |

| Immunogen                | Immunogen was recombinant SARS-CoV-2, S1 Subunit Protein (RBD) with C-terminal His tag, derived from the transfected human HEK293 cells. This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with the immunogen. The IgG fraction of tissue culture supernatant was purified by Protein G/A affinity chromatography. |
