| Kategorie                | Antikörper                                                                                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Virus                                                                                                                                                                                                                                                                                                                              |
| Immunogen                | Immunogen was recombinant SARS-CoV-2 S2 Subunit derived from E.coli. This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with the immunogen. The IgG fraction of tissue culture supernatant was purified by Protein G/A affinity chromatography. |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                                                                         |
