| Hersteller               | RayBiotech                                                                                                                                                                                                                                                    |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human, Mouse, Rabbit                                                                                                                                                                                                                                          |
| Produktbeschreibung      | The SARS-CoV-2 Spike Protein Overlapping Peptide Array is semi-quantitative array displaying 316 synthesized peptides representing the full-length SARS-CoV-2 Spike protein (wild-type). It is suitable for antibody epitope mapping and detection of IgG,... |
| Proben                   | Plasma, Serum, Ascites, Hybridoma cell culture medium, Other Body, Purified Antibodies, Purified Proteins                                                                                                                                                     |
