| Kategorie                | Biochemikalien                                                                                                                                                                                                                                                |
| Produktbeschreibung      | Destroys superoxide anion radicals which are normally produced within the cells and which are toxic to biological systems. Superoxide dismutase [Fe] Protein, Anabaena sp., Recombinant (His & KSI) is expressed in E. coli expression system with N-6xHis... |
| Molekulargewicht         | 16.4 kDa (predicted)                                                                                                                                                                                                                                          |
