| Kategorie                | Biochemikalien                                                                                                                                                                                                                                          |
| Produktbeschreibung      | May modulate the formation of a collagenous extracellular matrix. LOXL4 Protein, Mouse, Recombinant (His) is expressed in E. coli expression system with N-6xHis tag. The predicted molecular weight is 85.9 kDa and the accession number is Q924C6.... |
| Molekulargewicht         | 85.9 kDa (predicted)                                                                                                                                                                                                                                    |
