| Hersteller               | TargetMol                                                                                                                                                                                                                                                             |
| Kategorie                | Biochemikalien                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | Involved in DNA double-strand break (DSB) repair and recombination. Promotes the annealing of complementary single-stranded DNA and by stimulation of the RAD51 recombinase. RAD52 Protein, <i>S. cerevisiae</i> , Recombinant (His & SUMO) is expressed in E. col... |
| Molekulargewicht         | 41.1 kDa (predicted)                                                                                                                                                                                                                                                  |
