| Hersteller               | TargetMol                                                                                                                                                                                                   |
| Kategorie                | Biochemikalien                                                                                                                                                                                              |
| Produktbeschreibung      | TNFSF15 Protein, Mouse, Recombinant (His & Avi), Biotinylated is expressed in HEK293 mammalian cells with N-His-Avi tag. The predicted molecular weight is 24.40 kDa and the accession number is Q5UBV8.... |
| Molekulargewicht         | 24.40 kDa (predicted). Due to glycosylation, the protein migrates to 28-38 kDa based on Tris-Bis PAGE result.                                                                                               |
