| Kategorie                | Biochemikalien                                                                                                                                                                                                                      |
| Produktbeschreibung      | MSLN/Mesothelin Protein (Primary Amine Labeling), Mouse, Recombinant (His), Biotinylated is expressed in HEK293 mammalian cells with C-His tag. The predicted molecular weight is 35.2 kDa and the accession number is Q61468-1.... |
| Molekulargewicht         | 35.2 kDa (predicted). Due to glycosylation, the protein migrates to 45-60 kDa based on Tris-Bis PAGE result.                                                                                                                        |
