| Hersteller               | TargetMol                                                                                                                                                                     |
| Kategorie                | Biochemikalien                                                                                                                                                                |
| Produktbeschreibung      | TSLP Protein, Mouse, Recombinant (His) is expressed in HEK293 mammalian cells with His tag. The predicted molecular weight is 15.4 kDa and the accession number is Q9JIE6.... |
| Molekulargewicht         | 15.4 kDa (predicted), 22-27 kDa (reducing condition, due to glycosylation)                                                                                                    |
| Reinheit                 | 0.971                                                                                                                                                                         |
