| Produktbeschreibung      | Integrin alpha V beta 8 is a receptor for fibronectin. It recognizes the sequence R-G-D in its ligands. ITGAVB8 does not appear to assume different activation states, and the cytoplasmic tail does not connect to the cytoskeleton. It binds ligands con... |
| Molekulargewicht         | 187.95 kDa (predicted)                                                                                                                                                                                                                                        |
