| Kategorie                | Biochemikalien                                                                                                                                                                              |
| Produktbeschreibung      | LIFR Protein, Human, Recombinant (His), Biotinylated is expressed in HEK293 mammalian cells with His tag. The predicted molecular weight is 91 kDa and the accession number is P42702-1.... |
| Molekulargewicht         | 91 kDa (predicted), 125-135 kDa (reducing condition, due to glycosylation)                                                                                                                  |
