| Kategorie                | Biochemikalien                                                                                                                                                                                                                                         |
| Produktbeschreibung      | SARS-CoV-2 Spike S1 Protein (T19R & G142D & E156G & 157-158 deletion & L452R & T478K & D614G & P681R, His) is expressed in HEK293 mammalian cells with His tag. The predicted molecular weight is 76.27 kDa and the accession number is A0A6G7K2L4.... |
| Molekulargewicht         | 76.27 kDa (predicted), 95.12 kDa (reducing condition, due to glycosylation)                                                                                                                                                                            |
