| Kategorie                | Biochemikalien                                                                                                                                                                                                       |
| Produktbeschreibung      | CD30/TNFRSF8 Protein, Human, Recombinant (hFc & Avi), Biotinylated is expressed in HEK293 mammalian cells with hFc and Avi tag. The predicted molecular weight is 67.02 kDa and the accession number is P28908-1.... |
| Molekulargewicht         | 67.02 kDa (predicted), 110.33 kDa (reducing conditions)                                                                                                                                                              |
