| Alternativnummer         | USB-043916-200                                                                                                                                                                                                                                                |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FC, IHC, WB                                                                                                                                                                                                                                            |
| Immunogen                | KLH-conjugated synthetic peptide mapping to a fragment of residues within amino acids 206-234 in the N-terminal region of human XDH.                                                                                                                          |
| Produktbeschreibung      | XDH belongs to the group of molybdenum-containing hydroxylases involved in the oxidative metabolism of purines. The enzyme is a homodimer. This protein can be converted to xanthine oxidase by reversible sulfhydryl oxidation or by irreversible proteol... |
| UniProt                  | <a href="#">P47989</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by Protein A and peptide affinity chromatography.                                                                                                                                                                                                    |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2, 0.09% sodium azide.                                                                                                                                                                                                      |
