| Applikation              | WB                                                                                                                                                                                                                                                            |
| Immunogen                | Full length human PFDN4, aa1-134 (NP_002614.2).                                                                                                                                                                                                               |
| Produktbeschreibung      | This gene encodes a member of the prefoldin beta subunit family. The encoded protein is one of six subunits of prefoldin, a molecular chaperone complex that binds and stabilizes newly synthesized polypeptides, thereby allowing them to fold correctly.... |
| NCBI                     | <a href="#">002623</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with R-Phycoerythrin (PE).                                                                                                                                                                |
