| Alternativnummer         | USB-144614-100                                                                                                                                                                                                                                                |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Immunogen                | A synthetic peptide corresponding to a sequence at the N-terminal of human CCR9.                                                                                                                                                                              |
| Produktbeschreibung      | C-C chemokine receptor type 9, also called GPR-9-6 or CDw199, is a protein that in humans is encoded by the CCR9 gene. The protein encoded by this gene is a member of the beta chemokine receptor family. By radiation hybrid analysis and organization o... |
| UniProt                  | <a href="#">P51686</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a lyophilized powder from PBS, 5% BSA, 0.05% Thimerosal, 0.05% sodium azide. Reconstitution with 200ul sterile ddH2O.                                                                                                                             |
