| Alternativnummer         | USB-168259-100                                                                                                                                                                                                                                                     |
| Hersteller               | US Biological                                                                                                                                                                                                                                                      |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                             |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                         |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                          |
| Immunogen                | Recombinant protein corresponding to full length human IL-17A.                                                                                                                                                                                                     |
| Produktbeschreibung      | IL17-A (also known as Interleukin-17) is a proinflammatory cytokine produced by activated T cells. This cytokine regulates the activities of NF-K-B and mitogen-activated protein kinases. This cytokine can stimulate the expression of IL6 and cyclooxygenase... |
| Reinheit                 | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                     |
| Formulierung             | Supplied as a lyophilized powder in 0.02M potassium phosphate, 0.15M sodium chloride, pH 7.2, 0.01% sodium azide. Reconstitute with sterile dH2O or PBS.                                                                                                           |
