| Hersteller Artikelnummer | 208172                                                                                                                                                                                                                                                        |
| Alternativnummer         | USB-208172-100                                                                                                                                                                                                                                                |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Goat                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | Synthetic peptide corresponding to C-QHQWDGLLSYQD, from the internal region of the protein sequence according to NP_002053.3. Species sequence homology: mouse, rat, canine, porcine and bovine                                                               |
| Produktbeschreibung      | Pancreatic GLP-1 receptor activation is sufficient for incretin control of glucose metabolism in mice. Applications: Suitable for use in Peptide ELISA and Western Blot. Other applications not tested. Recommended Dilution: Peptide ELISA: 1:128,000 Wes... |
| NCBI                     | <a href="#">002053</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a liquid in Tris saline, pH 7.3, 0.5% BSA, 0.02% sodium azide.                                                                                                                                                                                    |
