| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This gene encodes a cell surface adhesion molecule that belongs to a family of adhesion/homing receptors. The encoded protein contains a C-type lectin-like domain, a calcium-binding epidermal growth factor-like domain, and two short complement-like r... |
