| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Specifically phosphorylates the agonist-occupied form of the beta-adrenergic and closely related receptors, probably inducing a desensitization of them. Source: Recombinant protein corresponding to aa1-689 from mouse Grk2, fused to His-SUMO-Tag at N-... |
