| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | CA72-4 Cancer Antigen is a gastro-intestinal cancer marker. Epitopes specific for CA72-4 are located between 500-1000kD by gel filtration. SDS-PAGE results will be very busy due to the large amount of carbohydrates present. This is typical for cancer... |
| Reinheit                 | Partially purified. Purity tested by SDS-PAGE.                                                                                                                                                                                                                |
| Formulierung             | Supplied as a liquid in 50mM Tris buffer, pH 7.3, 0.05% sodium azide, 0.5% sucrose.                                                                                                                                                                           |
