| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | CCAAT/enhancer binding protein (C/EBP) gamma is a family of transcription factors all contain a highly conserved, basic-leucine zipper domain at the C-terminus that is involved in dimerization and DNA binding. C/EBP family of transcription factors re... |

| UniProt                  | <a href="#">P53567</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by conventional chromatography techniques ( 95% by SDS PAGE).                                                                                                                                                                                        |
| Formulierung             | Supplied as a liquid in 20mM Tris-HCl, pH 7.5, 0.1M sodium chloride, 5mM beta-Mercaptoethanol.                                                                                                                                                                |
