## Product Datasheet

### **EFNA1 (Ephrin-A1, EPH-related Receptor Tyrosine Kinase Ligand 1, LERK-1, Immediate Early Response Protein B61, Tumor Necrosis Factor alpha-induced Protein 4, TNF alpha-induced Protein 4, EPLG1, LERK1, TNFAIP4), Goat USB-E3355-01E**

|                          |                                                                                                                                                                                                                                                               |

| Artikelname              | EFNA1 (Ephrin-A1, EPH-related Receptor Tyrosine Kinase Ligand 1, LERK-1, Immediate Early Response Protein B61, Tumor Necrosis Factor alpha-induced Protein 4, TNF alpha-induced Protein 4, EPLG1, LERK1, TNFAIP4), Goat                                       |
| Artikelnummer            | USB-E3355-01E                                                                                                                                                                                                                                                 |
| Hersteller Artikelnummer | E3355-01E                                                                                                                                                                                                                                                     |
| Alternativnummer         | USB-E3355-01E-100                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Goat                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | Synthetic peptide corresponding to C-KVTVSGKITHSP, from EFNA1, at the internal region of the protein (NP_004419.2).                                                                                                                                           |
| Produktbeschreibung      | Cell surface GPI-bound ligand for Eph receptors, a family of receptor tyrosine kinases which are crucial for migration, repulsion and adhesion during neuronal, vascular and epithelial development. Binds promiscuously Eph receptors residing on adjacen... |
| NCBI                     | <a href="#">004419</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |

|              |                                                                            |
|--------------|----------------------------------------------------------------------------|
| Formulierung | Supplied as a liquid in Tris saline, 0.02% sodium azide, pH 7.3, 0.5% BSA. |
