| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Produktbeschreibung      | Applications: Suitable for use in Western Blot, ELISA, Immunoperoxidase electron microscopy and Immunohistochemistry. Other applications not tested. Recommended Dilutions: Optimal dilution determined by the researcher. Storage and Stability: Lyophili... |
| Reinheit                 | Purified by delipidation, salt fractionation and ion exchange chromatography. IEP Assay shows a single precipitin arc against anti-peroxidase, anti-chicken IgG and anti-chicken serum.                                                                       |
| Formulierung             | Supplied as a lyophilized powder from PBS, pH 7.2, 10mg/ml BSA (IgG and Protease free). No preservative added. Labeled with HRP. Reconstitute with 1ml sterile ddH2O.                                                                                         |
