| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                                |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                   |
| Produktbeschreibung      | Applications: Suitable for use in ELISA, Western Blot and Immunohistochemistry. Other applications not tested.<br>Recommended Dilution: Optimal dilutions to be determined by the researcher. Storage and Stability: Lyophilized powder may be stored at -20C... |
| Reinheit                 | Purified by ion exchange chromatography. IEP Assay shows a single precipitin arc against source serum protein and IgG.                                                                                                                                           |
| Formulierung             | Supplied as a lyophilized powder in PBS, pH 7.2, 10mg/ml BSA. No preservative added. Reconstitute with 1ml sterile, ddH2O or sterile 40-50% glycerol.                                                                                                            |
