| Produktbeschreibung      | Long chain alkanethiol suitable for self-assembly from solution onto gold surfaces. The control of surface functionality using these self-assembled monolayers (SAMs) makes the exploration of such interactions as protein recognition possible. Solubili... |
| Formulierung             | Light Yellow Oil                                                                                                                                                                                                                                              |
