| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Control Peptide for N0035-20 (antiserum) and N0035-21 (affinity purified) Inorganic phosphate (Pi) levels are hormonally regulated that affects the physiological activity of bone, kidney, and small intestine. Majority of the Pi is absorbed in the sma... |
| Reinheit                 | Highly purified                                                                                                                                                                                                                                               |
| Formulierung             | Supplied as a liquid in PBS, pH 7.2, 0.05% sodium azide.                                                                                                                                                                                                      |
