## Product Datasheet

**PDK1 (PDPK1, PI-P3 Dependent Kinase, 3a Phosphoinositide-dependent Protein Kinase 1), Rabbit**  
**USB-P3123-09**

|                          |                                                                                                                                                                                                                                                               |

| Alternativnummer         | USB-P3123-09-100                                                                                                                                                                                                                                              |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | A synthetic peptide, RKIQEVWRQRYQS, corresponding to amino acids 301-312 of PDK-1. Accession number AC005591.                                                                                                                                                 |
| Produktbeschreibung      | PDK-1 (3-Phosphoinositide-dependent Protein Kinase-1) phosphorylates AGC kinases. PDK-1 activates conventional PKC and PKCz (zeta) through phosphorylation of critical threonine residues in the activation loop. PDK-1 also phosphorylates Protein Kinase... |

| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as liquid in PBS, 0.09% sodium azide. No stabilizing proteins added.                                                                                                                                                                                 |
