| Artikelname              | PGC-1 alpha, phosphorylated (S571) (Peroxisome Proliferator Activated Receptor gamma Coactivator 1 alpha, PPAR gamma Coactivator 1 alpha, PPARGC-1 alpha, PPARGC1A, PGC1 alpha, PGC1A, PGC1, PGC-1, Ligand Effect Modulator 6, LEM6),                         |
| Artikelnummer            | USB-P3363-03C                                                                                                                                                                                                                                                 |
| Hersteller Artikelnummer | P3363-03C                                                                                                                                                                                                                                                     |
| Alternativnummer         | USB-P3363-03C-100                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Immunogen                | Phosphopeptide containing the human PGC1a S571 site.                                                                                                                                                                                                          |
| Produktbeschreibung      | PGC-1a is a 97-120kD member of the PGC-1 family of proteins. It is expressed in select cell types, including brown adipocytes, skeletal muscle and hepatocytes. PGC-1a participates in both RNA processing and transcriptional coactivation in conjunction... |
| UniProt                  | <a href="#">Q9UBK2</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |

|              |                                                                                                          |
|--------------|----------------------------------------------------------------------------------------------------------|
| Formulierung | Supplied as a lyophilized powder from PBS, pH 7.4, 5% trehalose.<br>Reconstitute with 500ul sterile PBS. |
