| Alternativnummer         | USB-P9103-18L-100                                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                                             |
| Applikation              | WB                                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | Peptide Type: Distinct region of protein kinase C beta2 C-terminal<br>Sequence: NH <sub>2</sub> -CFVNSEFLKPEVKS-COOH Applications: Will compete with the anti-peptide antibody in Western blotting for confirmation of the PKC specificity of the antibody binding. Other ... |
| Formulierung             | Supplied in ammonium bicarbonate buffer.                                                                                                                                                                                                                                      |
