| Alternativnummer         | USB-Y2065-15D-100                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Goat                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC                                                                                                                                                                                                                                                    |
| Immunogen                | Synthetic peptide corresponding to CFSKSESSHKGFHYK, from human CCDC50, at the internal region of the protein (NP_848018.1, NP_777568.1).                                                                                                                      |
| Produktbeschreibung      | Involved in EGFR signaling. Applications: Suitable for use in ELISA and Immunohistochemistry. Other applications not tested. Recommended Dilution: ELISA: 1:32,000 Immunohistochemistry (Paraffin): 5-10ug/ml Optimal dilutions to be determined by the re... |
| NCBI                     | <a href="#">848018</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Formulierung             | Supplied as a liquid in Tris saline, 0.02% sodium azide, pH 7.3, 0.5% BSA.                                                                                                                                                                                    |
