## Product Datasheet

**ZNF289 (IRZ, FLJ14576, FLJ26000, GTPase Activating Protein ZNF289, Nbla10535, Zfp289) (Azide Free) (MaxLight 650), IgG2a, Clone: [4B3], Mouse, Monoclonal  
USB-Z0742-89-ML650**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FLISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                | Recombinant protein corresponding to a portion of amino acids within aa331-431 of human ZNF85.                                                                                                                                                                |
| Produktbeschreibung      | MaxLight(TM)650 is a new Far-IR stable dye conjugate comparable to Alexa Fluor(TM)647, DyLight(TM)649, Cy5(TM) and offers better labeling efficiency, brighter imaging and increased immunodetection. Absorbance (655nm), Emission (676nm), Extinction Coe... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [4B3]                                                                                                                                                                                                                                                         |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |

|              |                                                                                           |
|--------------|-------------------------------------------------------------------------------------------|
| NCBI         | <a href="#">115765</a>                                                                    |
| Reinheit     | Purified by immunoaffinity chromatography.                                                |
| Formulierung | Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with MaxLight(TM)650. |
