| Alternativnummer         | USB-494713-100                                                                                                                                                                                                                                                |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Immunogen                | Synthetic peptide corresponding to the N-terminal region of human TRPM8                                                                                                                                                                                       |
| Produktbeschreibung      | TRPM8 is the receptor-activated non-selective cation channel involved in detection of sensations such as coolness, by being activated by cold temperature below 25 degrees Celsius. TRPM8 is activated by icilin, eucalyptol, menthol, cold and modulation... |
