| Produktbeschreibung      | Biotin is a small molecule involved in a wide range of metabolic processes. This ligand forms a complex with Avidin and Streptavidin, resulting in the strongest non-covalent protein-ligand interaction known. Biotinylated Tulip sp. Lectin (TL) has an ... |
| Reinheit                 | Highly Purified                                                                                                                                                                                                                                               |
| Formulierung             | Supplied as a liquid in PBS, 0.02% thimerosal. Labeled with Biotin.                                                                                                                                                                                           |
