## Product Datasheet

### Human TGFR-1 / ALK-5 / TGF-beta receptor type-1 Protein, Llama IgG2b Fc Tag (SPR verified), Unconjugated ABS-TG1-H5259-1MG

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | AcroBiosystems                                                                                                                                                                                                                                                |
| Wirt                     | Human                                                                                                                                                                                                                                                         |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | TGF type I receptor also called the activin receptorlike kinase 5 (ALK5) and involved in TGF signaling. TGFbeta signaling is mediated by the interaction of TGFbeta ligands (TGFbeta 1, 2 or 3) with cell surface receptors, the TGF type I, type II and t... |
| Molekulargewicht         | 38.0 kDa                                                                                                                                                                                                                                                      |
| Tag                      | C-LlamaFc(LlamaIgG2b)                                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">36897</a>                                                                                                                                                                                                                                         |
| Puffer                   | 50 mM Tris, 100 mM Glycine, 25 mM Arginine, 150 mM NaCl, pH7.5                                                                                                                                                                                                |
| Expression System        | Leu 34 - Leu 126                                                                                                                                                                                                                                              |
