| Alternativnummer         | BYT-ORB1273018-0.1                                                                                                                                                    |
| Hersteller               | Biorbyt                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                 |
| Kategorie                | Antikörper                                                                                                                                                            |
| Applikation              | ELISA, IF                                                                                                                                                             |
| Spezies Reaktivität      | Virus                                                                                                                                                                 |
| Konjugation              | Unconjugated                                                                                                                                                          |
| Produktbeschreibung      | SARS-CoV-2 (COVID-19) Nucleocapsid Antibody [3869]...                                                                                                                 |
| Klonalität               | Monoclonal                                                                                                                                                            |
| Konzentration            | batch dependent                                                                                                                                                       |
| Klon-Bezeichnung         | [3869]                                                                                                                                                                |
| Puffer                   | Coronavirus Nucleocapsid Antibody is in a phosphate saline buffer (0.01M, pH 7.2) containing 0.1% sodium azide preservative. No stabilizing proteins have been added. |

|                        |                                                                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid                                                                                                                                                          |
| Anwendungsbeschreibung | Application Notes: Suggested starting ranges are 1:10-1:50 for IFA and 1:20-1:200 for ELISA. BEST ELISA pairs (capture-conjugate): clones 3869-3868 / 3869-3866 |
