| Konjugation              | Unconjugated                                                                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | The nucleocapsid protein is one of the core components of the SARS coronavirus (CoV). This protein forms a closed capsule, inside which the genomic RNA is securely stored, and it is also involved in packaging the RNA into virus particles....                                                                    |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                                                                           |

|                        |                                                                            |
|------------------------|----------------------------------------------------------------------------|
| Konzentration          | 1 mg/ml                                                                    |
| Puffer                 | PBS, 20% glycerol and 0.05% sodium azide                                   |
| Target-Kategorie       | Nucleocapsid (SARS-CoV-2)                                                  |
| Application Verdünnung | WB:1:500-1:2,000                                                           |
| Anwendungsbeschreibung | Application Notes: The antibody solution should be gently mixed before use |
