| Alternativnummer         | BYT-ORB257990-1,BYT-ORB257990-20,BYT-ORB257990-50                                                                                       |
| Hersteller               | Biorbyt                                                                                                                                 |
| Kategorie                | Proteine/Peptide                                                                                                                        |
| Spezies Reaktivität      | Human                                                                                                                                   |
| Konjugation              | Unconjugated                                                                                                                            |
| Produktbeschreibung      | Human LIF Protein, premium grade is expressed from human 293 cells (HEK293). It contains AA Ser 23 - Phe 202 (Accession AAH69540.1).... |
| Molekulargewicht         | 19.9 kDa                                                                                                                                |
| NCBI                     | <a href="#">69540</a>                                                                                                                   |
| UniProt                  | <a href="#">P15018</a>                                                                                                                  |
| Puffer                   | PBS, pH 7.4                                                                                                                             |
| Quelle                   | Human                                                                                                                                   |
| Reinheit                 | 90%                                                                                                                                     |
| Formulierung             | Powder                                                                                                                                  |
| Sequenz                  | AAH69540.1                                                                                                                              |

|                        |                                                                                                                                                                                             |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | LIF                                                                                                                                                                                         |
| Anwendungsbeschreibung | Application Notes: This protein carries no tag. The protein has a calculated MW of 19.9 kDa. The protein migrates as 33-45 kDa under reducing (R) condition (SDS-PAGE) due to glycosylation |
