## Product Datasheet

### Mouse IgG2a isotype Control Antibody, Clone: [M2A], Unconjugated BYT-ORB343777

Artikelname	Mouse IgG2a isotype Control Antibody, Clone: [M2A], Unconjugated
Artikelnummer	BYT-ORB343777
Hersteller Artikelnummer	orb343777
Alternativnummer	BYT-ORB343777-1
Hersteller	Biorbyt
Kategorie	Proteine/Peptide
Applikation	FC, SDS-PAGE
Konjugation	Unconjugated
Produktbeschreibung	Mouse IgG2a isotype Control Antibody...
Konzentration	1.0 mg/mL
Klon-Bezeichnung	[M2A]
Isotyp	IgG2a
Puffer	0.01% (w/v) Sodium Azide
Quelle	Mouse
Reinheit	Mouse Isotype control has been prepared from concentrated cell culture supernatant by immunoaffinity chromatography using protein A. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Mouse IgG2a and anti-Mouse Serum. Isotyping assay resulted the material is non-reactive with antisera to mouse IgG1, IgG2b, IgG3, IgM, and IgA. Confirmed by SDS-PAGE.

Formulierung	Liquid
Application Verdünnung	FC: 1:1000-1:5000
Anwendungsbeschreibung	Biological Origin: Mouse. Application Notes: Mouse IgG2a isotype control has been tested by SDS-Page and can be utilized as a control or standard reagent in Flow cytometry, Western Blotting, and ELISA experiments where determination of sample isotype is important
