| Artikelname              | Influenza-A H1N1 Antibody, Clone: [IA-H1N1], Unconjugated, Mouse, Monoclonal |
| Artikelnummer            | BYT-ORB423597                                                                |
| Hersteller Artikelnummer | orb423597                                                                    |
| Alternativnummer         | BYT-ORB423597-1,BYT-ORB423597-10,BYT-ORB423597-50                            |
| Hersteller               | Biorbyt                                                                      |
| Wirt                     | Mouse                                                                        |
| Kategorie                | Antikörper                                                                   |
| Spezies Reaktivität      | Virus                                                                        |
| Immunogen                | Influenza A hemagglutinin H1N1                                               |
| Konjugation              | Unconjugated                                                                 |
| Produktbeschreibung      | Mouse monoclonal antibody to Influenza-A H1N1...                             |
| Klonalität               | Monoclonal                                                                   |
| Klon-Bezeichnung         | [IA-H1N1]                                                                    |
| Puffer                   | In PBS, pH 7.4 and 0.09% NaN <sub>3</sub> .                                  |
| Formulierung             | Sterile Filtered clear solution.                                             |

|                        |                                                                                                                                                                                                                                                                                                                                                                                   |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Application Notes: Applications: Influenza A haemagglutinin 1 H1N1 immunodetection in direct or indirect ELISA, sandwich immunoassay, Western Blotting. Recommended pairs for Influenza A H1N1 in sandwich immunoassay (coating - conjugate): All pairs detect H1N1 of Influenza A as well as recombinant H1N1 with high specificity and do not interact with haemagglutinin H3N2 |
