| Alternativnummer         | BYT-ORB1939804-100                                                                                                                                                              |
| Hersteller               | Biorbyt                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                      |
| Applikation              | ELISA, FC, ICC, IF, IHC, WB                                                                                                                                                     |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                               |
| Immunogen                | E.coli-derived human ORC2 recombinant protein (Position: E130-R493). Human ORC2 shares 80.2% and 79.4% amino acid (aa) sequence identity with mouse and rat ORC2, respectively. |
| Konjugation              | Unconjugated                                                                                                                                                                    |
| Produktbeschreibung      | Anti-ORC2 Antibody. Tested in WB, IHC, ICC/IF, Flow Cytometry, ELISA applications. This antibody reacts with Human, Mouse, Rat....                                              |
| Klonalität               | Polyclonal                                                                                                                                                                      |
| Konzentration            | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                       |
| Molekulargewicht         | 74 kDa                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                                                                                                                       |
