| Kategorie                | Proteine/Peptide                                                                                                                                                                           |
| Produktbeschreibung      | This Human CD40 protein spans the amino acid sequence from region 21-193aa. Purity: Greater than 92% as determined by SDS-PAGE....                                                         |
| Molekulargewicht         | 48 kDa                                                                                                                                                                                     |
| UniProt                  | <a href="#">P25942</a>                                                                                                                                                                     |
| Puffer                   | Lyophilized from a 0.2 µm sterile filtered PBS, 6% Trehalose, pH 7.4                                                                                                                       |
| Quelle                   | Homo sapiens (Human)                                                                                                                                                                       |
| Reinheit                 | Greater than 92% as determined by SDS-PAGE.                                                                                                                                                |
| Formulierung             | Lyophilized powder                                                                                                                                                                         |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Biological Origin: Homo sapiens (Human). Application Notes: We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference |
