|------------------------|----------------------------------------------------------------------------------------------------------------------|
| Produktbeschreibung    | Anti-SARS-CoV-2 N/ORF9/Nucleocapsid Antibody. Tested in ELISA applications. This antibody reacts with Human....      |
| Klonalität             | Polyclonal                                                                                                           |
| Konzentration          | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                            |
| Molekulargewicht       | 140 kDa, 130 kDa, 110 kDa                                                                                            |
| UniProt                | <a href="#">P0DTC9</a>                                                                                               |
| Formulierung           | Lyophilized                                                                                                          |
| Anwendungsbeschreibung | Application Notes: ELISA, 0.001-0.1µg/ml, Human. Add 0.2ml of distilled water will yield a concentration of 500ug/ml |
