| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC-P                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Human thyroid follicular cells were used as the immunogen for the TG antibody.                                                                                                                                                                                |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Thyroglobulin is a 660 kDa dimeric pre-protein with mutiple glycosylation sites. It is produced by and processed within the thyroid gland to produce the hormone thyroxine and triiodothyronine. Prior to forming dimers, thyroglobulin monomers undergo c... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [TGB24]                                                                                                                                                                                                                                                       |

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">P01266</a>                                                                                 |
| Formel                 | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide                             |
| Application Verdünnung | ELISA: 2-4ug/ml (order BSA/azide-free format),Immunohistochemistry (FFPE): 0.5-1ug/ml for 30 min at RT |
| Anwendungsbeschreibung | Optimal dilution of the CD71 antibody should be determined by the researcher.                          |
