| Alternativnummer         | BYT-ORB757459-10,BYT-ORB757459-100,BYT-ORB757459-50                                                                                                                                              |
| Hersteller               | Biorbyt                                                                                                                                                                                          |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                 |
| Spezies Reaktivität      | Human                                                                                                                                                                                            |
| Produktbeschreibung      | Recombinant Human LIGHT protein with N-terminal human Fc...                                                                                                                                      |
| Molekulargewicht         | The protein has a predicted molecular mass of 43.4 kDa after removal of the signal peptide.                                                                                                      |
| UniProt                  | <a href="#">043557</a>                                                                                                                                                                           |
| Puffer                   | Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions.                   |
| Reinheit                 | The purity of the protein is greater than 95% as determined by SDS-PAGE and Coomassie blue staining.                                                                                             |
| Formulierung             | Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. |
| Target-Kategorie         | LIGHT                                                                                                                                                                                            |
