| Artikelname              | RGA Antibody, Unconjugated, Rabbit, Polyclonal                                                       |
| Artikelnummer            | BYT-ORB795172                                                                                        |
| Hersteller Artikelnummer | orb795172                                                                                            |
| Alternativnummer         | BYT-ORB795172-2                                                                                      |
| Hersteller               | Biorbyt                                                                                              |
| Wirt                     | Rabbit                                                                                               |
| Kategorie                | Antikörper                                                                                           |
| Applikation              | ELISA, WB                                                                                            |
| Spezies Reaktivität      | A. thaliana                                                                                          |
| Immunogen                | A synthesized peptide derived from Escherichia coli O139:H28 (strain E24377A / ETEC) EcE24377A_1122. |
| Konjugation              | Unconjugated                                                                                         |
| Produktbeschreibung      | RGA Antibody...                                                                                      |
| Klonalität               | Polyclonal                                                                                           |
| UniProt                  | <a href="#">Q9SLH3</a>                                                                               |
| Puffer                   | Preservative: 0.03% Proclin 300. Constituents: 50% Glycerol                                          |
| Formulierung             | Liquid                                                                                               |
| Target-Kategorie         | RGA                                                                                                  |

|                        |                                                                                                                                                                                       |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Application Notes: 1. Antibody purity > 90% confirmed by SDS-PAGE, 2. Antibody titer > 1: 64,000 confirmed by ELISA, 3. WB (positive for the antigen / recombinant immunogen protein) |
