| Hersteller               | Biorbyt                                                                                                                                                                                                                            |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                   |
| Produktbeschreibung      | This Drosophila lush protein spans the amino acid sequence from region 30-153aa. Purity: Greater than 90% as determined by SDS-PAGE....                                                                                            |
| Molekulargewicht         | 19.2 kDa                                                                                                                                                                                                                           |
| UniProt                  | <a href="#">002372</a>                                                                                                                                                                                                             |
| Puffer                   | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0. |
| Quelle                   | Drosophila melanogaster (Fruit fly)                                                                                                                                                                                                |
| Reinheit                 | Greater than 90% as determined by SDS-PAGE.                                                                                                                                                                                        |
| Formulierung             | Liquid or Lyophilized powder                                                                                                                                                                                                       |
| Sequenz                  | MTMEQFLTSLDMIRSGCAPKFKLKTEDLDRLRVGDFNFPPSQDLMCYTKCVSL<br>MAGTVNKKGEFNAPKALAQLPHLVPPMEMMSRKSVEACRDTHKQFKESCE<br>RVYQTAKCFSENADGQFMWP                                                                                                |

|                        |                                                                                                                                                                                                                                     |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Biological Origin: Drosophila melanogaster (Fruit fly). Application Notes: Tag info: N-terminal 10xHis-tagged and C-terminal Myc-taggedExpression Region: 30-153aaSequence Info: Full Length of Mature ProteinGlycerol content: 0.5 |
