## Product Datasheet

### **Recombinant SARS-Cov-2 Spike trimer protein, His & Avi (HEK293), Biotin conjugated BYT-ORB2328779**

|                          |                                                                                                                                                             |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Recombinant SARS-Cov-2 Spike trimer protein, His & Avi (HEK293), Biotin conjugated                                                                          |
| Artikelnummer            | BYT-ORB2328779                                                                                                                                              |
| Hersteller Artikelnummer | orb2328779                                                                                                                                                  |
| Alternativnummer         | BYT-ORB2328779-20                                                                                                                                           |
| Hersteller               | Biorbyt                                                                                                                                                     |
| Kategorie                | Proteine/Peptide                                                                                                                                            |
| Produktbeschreibung      | Recombinant SARS-Cov-2 Spike trimer protein, His & Avi (HEK293), Biotin conjugated...                                                                       |
| Konzentration            | >0.5 mg/ml                                                                                                                                                  |
| Molekulargewicht         | Due to glycosylation, the protein migrates to 175-230 kDa based on Tris-Bis PAGE result.                                                                    |
| Reinheit                 | >95% as determined by Tris-Bis PAGE                                                                                                                         |
| Sequenz                  | 16-1188/1273                                                                                                                                                |
| Target-Kategorie         | Spike glycoprotein                                                                                                                                          |
| Anwendungsbeschreibung   | Centrifuge tubes before opening. Reconstituting to a concentration more than 100 µg/ml is recommended. Dissolve the lyophilized protein in distilled water. |
